Mr. Silvia an entrepreneur and wine expert formed WineTeam, Inc. in 2004. A partnership of wineries that export California wines to international destinations that currently do not have any quality California boutique wines.

WineTeam is an association of a small group of wineries that cut cost and overall expenses, enabling importer and distributor to work directly with wineries to expand their sales, organize private wine tasting and perform export of California wines to countries that currently do not have access to these wines.

In this saturated and monopolized new market of California wines, WineTeam developed a unique venture that is a cooperative alliance of several wine vineyards. **This partnership will help importers and retailers to work directly with several wineries at once**, cutting out any additional cost such as agents, brokers, middlemen, etc....

Wine Team has an incredible selection of some of the best California boutiques wines at **every day drinking cost**. WineTeam, with his **Partnership of Wineries** has an asset of more than 500,000 thousand cases to be exported with a very competitive price. We are using the word "boutique wine" for the quality of our wine not for the price or the size of our operation and wineries.

WineTeam has effectively introduced California boutique wines into Mexico, has begun developing distribution in the Far East and Europe, and is looking towards the next group of markets to open.

The United States Department of Agriculture and the US Department of Commerce have recognized Antonio Silvia as a leader in the exporting of California Boutique wines into Mexico. Mr. Silvia, president of WineTeam comes from generations of winemakers in his native country, Italy.
